

COACHMAN 40^{Years}

• Founded 1986 •

Your road to freedom

Designed for comfort, built for adventure

2027 Collection

Excellent craftsmanship, high quality construction and thoughtful design have been at the heart of every Coachman caravan built since 1986.

New in 2027

Exceptional craftsmanship, robust build quality and thoughtful design remain at the heart of every Coachman motorhome. Our reputation for engineering excellence means you can rely on innovative, high-specification models, with a choice of sleeping and seating layouts to suit every journey.

For 2027, we're proud to unveil our latest motorhome collection, introducing three exciting new models to offer even more choice for every kind of escape.

The Sportivo range welcomes the 565 Compact and rugged 4x4 565 TRAQ, bringing enhanced capability and adventure-ready versatility to the line-up. The Travel Master gains a new L-shaped lounge layout, offering greater flexibility and comfort. Meanwhile, the Avventura continues to deliver a stylish combination of comfort, sophistication and adventure, perfectly suited to long-distance touring.

Every 2027 model benefits from meticulous attention to detail, advanced safety features and premium fittings throughout. From the first mile to the last, every Coachman motorhome is designed to deliver confidence, comfort and an exceptional touring experience.

- **NEW** 150 amp lithium battery
- Wi-Fi with roof antenna
- Alde wet central heating and hot water system and AGS II waterborne underfloor heating

TURN UP THE HEAT

The Alde technology is as sophisticated as the heating found in modern, high-tech homes.

Alde works in close partnership with Coachman. Each stage of the design process is reviewed to ensure heat output, ventilation and installation is as efficient and effective as it can be.

Coachman motorhomes are subjected to extensive cold chamber testing ensuring they perform just as well during cold winters as warm summers.

Sportivo and Travel Master models offer superior levels of insulation and are equipped with an Alde 3030 heater and waterborne underfloor heating. Many of the essential year-round functions are integrated into the construction and may not be immediately visible when you first step into the motorhome. But you will notice the difference when you use your Coachman.

Avventura models feature the radiant, hydronic central heating which also offers many benefits:

- It heats every part of the motorhome creating a homely warmth whatever the season
- The glycol heating fluid circulates quietly around the vehicle ensuring peace and tranquillity
- Both gas and electric power sources can be combined when required, giving you hot water, fast
- Low 12V battery consumption, ensuring you and your batteries can go further
- Pipes and radiators are mounted discreetly behind furniture, optimising available storage

LUXURY MEETS PRACTICALITY

AVVENTURA

BERTHS

The Avventura is designed for adventurers who value elegance and versatility without compromise. Built on a rugged AL-KO chassis and powered by a 180 hp Fiat engine, it delivers confident, smooth performance mile after mile.

Inside, the luxurious interior combines soft-close cabinetry, stain-resistant furnishings and thoughtfully placed ambient lighting to create a space that feels like home. Stylish wood finishes, modern matt-black accents and seamless storage solutions ensure the Avventura blends contemporary design with everyday usability.

Available in two layouts - fixed double or fixed single beds - the Avventura offers refined freedom for every adventure.

BERTHS

The Sportivo combines comfort, convenience and practicality for life on the road, with two new models joining the range for 2027.

The new 565 Compact offers a smaller, more agile footprint, and like the 565 is powered by a formidable 170HP Mercedes-Benz Sprinter engine and paired with a smooth 9-speed automatic gearbox - delivering exceptional performance with effortless control. The new 565 TRAQ delivers rugged 4x4 capability with a powerful 190HP Mercedes-Benz Sprinter engine, ideal for adventurous couples and solo travellers.

Inside, contemporary styling, premium materials and thoughtful design showcase the very best of Coachman craftsmanship, combining luxury, innovation and smart living on the road.

BERTHS

The Travel Master is our most luxurious motorhome, combining exceptional quality, comfort and refined design for those who appreciate life's finer details.

The new 565L features an L-shaped lounge for greater flexibility and comfort, alongside spacious twin beds similar to the 565. The 545 offers a luxurious island bed, with each model designed for flexible, high-end living on the move.

Built on a prestigious Mercedes-Benz base with an AL-KO chassis, the Travel Master delivers a smooth, composed drive. Inside, elegant design and intelligent functionality create a luxurious sanctuary where you can unwind in comfort - wherever your journey takes you.

Notes:

- 1) The Maximum User Payload includes:
 - a) Conventional Load (this is the allowance for the passengers intended to be carried)
 - b) Essential habitation equipment (not accounted for in the MRO, items and fluids required for the safe and proper functioning of habitation equipment)
 - c) Optional equipment (Items made available from the manufacturer over and above the standard specification)
 - d) Personal effects (those items not covered by the above)
- 2) The Mass in Running Order is the mass of the unladen vehicle including a 75kg allowance for the driver, an allowance for the fuel tank filled to 90% of its capacity and 10kg allowance for the LPG bottle and 4kg allowance for the mains connection cable.
- 3) The Mass in Running Order is calculated with the fresh water, water heater tanks and waste water tanks empty. If you wish to travel with water in any of these tanks, then an allowance must be made, by reducing the payload accordingly.

This leaflet has been designed to provide you with basic information prior to making a purchase decision. Please refer to your dealer for additional information before you buy.

Coachman Caravan Company Limited reserves the right to, and does from time to time, alter technical specifications, prices and model ranges as materials, model improvements and conditions demand, therefore can accept no responsibility for discrepancies between these and subsequent models. Household items illustrated in the leaflet (e.g. fruit and personal effects) have been used to enhance photography and are not supplied with the caravan. Limitations in the printing process may mean colours are not truly represented.

It should be noted that distributors and dealers are not the agents of Coachman Caravan Company Limited and therefore are not authorised to bind the Company by any specific or implied undertaking or representation.

All Coachman models have been certified by the National Caravan Council for compliance with stringent European Standards, British Legislation and industry set Codes of Practice, specifically relating to health and safety issues.

The approval process covers the testing and inspection of critical areas of the product from fire safety, weights and dimensions to gas, electrics and ventilation.

Every Coachman motorhome carries the "NCC Approved Caravan" badge. The NCC also conducts unannounced inspections at the Coachman factory to ensure continued compliance. NCC Approval gives you peace of mind that your caravan is legal and safe.
