From weekend escapes to cross country journeys or remote work retreats the new Coachman Veloce campervan range makes every adventure unforgettable - this is travel without compromise.

Built on the Fiat Ducato platform and powered by a 2.2-litre, 140 HP engine, the Veloce delivers effortless performance with car-like driving qualities. Step inside the Veloce and enjoy a bright, spacious living area, where a large roof window, soft ambient lighting, contemporary finishes and coordinated furnishings create a warm and welcoming interior.

Notes:

- 1) The Maximum User Payload includes:
 - a) Conventional Load (this is the allowance for the passengers intended to be carried)
 - b) Essential habitation equipment (not accounted for in the MRO, items and fluids required for the safe and proper functioning of habitation equipment)
 - c) Optional equipment (Items made available from the manufacturer over and above the standard specification)
 - d) Personal effects (those items not covered by the above)
- 2) The Mass in Running Order is the mass of the unladen vehicle including a 75kg allowance for the driver, an allowance for the fuel tank filled to 90% of its capacity and 10kg allowance for the LPG bottle and 4kg allowance for the mains connection cable.
- 3) The Mass in Running Order is calculated with the fresh water, water heater tanks and waste water tanks empty. If you wish to travel with water in any of these tanks, then an allowance must be made, by reducing the payload accordingly.

This leaflet has been designed to provide you with basic information prior to making a purchase decision. Please refer to your dealer for additional information before you buy.

Coachman Caravan Company Limited reserves the right to, and does from time to time, alter technical specifications, prices and model ranges as materials, model improvements and conditions demand, therefore can accept no responsibility for discrepancies between these and subsequent models. Household items illustrated in the leaflet (e.g. fruit and personal effects) have been used to enhance photography and are not supplied with the caravan. Limitations in the printing process may mean colours are not truly represented.

It should be noted that distributors and dealers are not the agents of Coachman Caravan Company Limited and therefore are not authorised to bind the Company by any specific or implied undertaking or representation.

All Coachman models have been certified by the National Caravan Council for compliance with stringent European Standards, British Legislation and industry set Codes of Practice, specifically relating to health and safety issues.

The approval process covers the testing and inspection of critical areas of the product from fire safety, weights and dimensions to gas, electrics and ventilation.

Every Coachman motorhome carries the "NCC Approved Caravan" badge. The NCC also conducts unannounced inspections at the Coachman factory to ensure continued compliance. NCC Approval gives you peace of mind that your caravan is legal and safe.
